

JUMPSTART 2022 / TEEN ARCHSTUDIO 2022

Computer Hardware Recommendations:

- **Laptop or Desktop Computer**
 - Strongly recommended 8GB RAM
 - 500GB hard drive (or combination with external hard drive space, SSD preferred)
 - Windows 10 / OSX
 - Intel i5 or above
- 3-button mouse
- Webcam (if not integrated)
- Headphones / microphone (if not integrated)

Computer Software Recommendations:

- **Zoom**
 - As a participant of Jumpstart or Teen ArchStudio* you will be considered a UCLA enrollee for the duration of the program. This means you will get a UCLA email address and licensed Zoom account (Jumpstart). With an educational email, you are eligible for educational software programs and trial versions. *Teen ArchStudio will be able to join meetings but will not receive UCLA licensed account. You can use any existing account to join meetings as well.
- **Miro**
 - You will be using Miro throughout the summer curriculum
<https://miro.com/signup/>
- **Rhino**
 - Free 90 day trial: <https://www.rhino3d.com/download/>
- **Adobe Suite (Photoshop and Illustrator)**
 - With your UCLA Logon, you will be able to access and download the Adobe Suite for the duration of your registration at UCLA
- **V Ray Trial (Windows Only)**
 - 30 day free trial: <https://vray.us/vray-rhino>
- **Kyshot Trial (for Mac users)**
 - 14 day free trial: <https://www.keyshot.com/try/>

Note: If you will be working with the trial versions we recommend that you download and install the day before the program starts.

Recommended Hardware for Sketching and Physical Models:

- Paper
