

Degree Progress Guide for Majors + Minors

Summer Fast Pass for Majors and Minors serves as a guide for how undergraduate students with a major and a minor can utilize summer to effectively manage their course schedule and make significant degree progress. It is intended to show what is possible with the inclusion of the summer term in a student's academic journey.

The course options listed under each major + minor pairing were selected based on previous summer course offerings and major/minor requirements outlined on each individual department's website. Several course options are listed under each pairing to provide maximum flexibility for student scheduling and to encourage students to create their own personalized fast pass.

This specific guide is designed for undergraduate students admitted as a freshman who is **majoring in Psychology** and **minoring in Education Studies**.

Disclaimer: Please note, the Summer Fast Pass for Majors + Minors serve as a **general guide ONLY**. Final enrollment decisions will ultimately depend on a student's current progress in the major and/or minor. It is a student's responsibility to ensure they meet the prerequisites for any courses prior to enrolling. Please defer to the major and/or minor's department for degree specific questions.

It is important that the individual student understands the major requirements and is aware of the correct courses they need to be taking in preparation for the Psychology major. Please be mindful that courses that satisfy the same requirement may be included within the same year, so it is up to the student to select courses that do not fulfill the same requirement.

For each year, select 2 courses from Category A + 1 course from Category B.

YEAR 1

CATEGORY A (Psychology Summer Courses Offered)

CHEM 14A: General Chemistry for Life Scientists I (4 units)

Satisfies a lower division course in preparation for the Psychology major.

CHEM 17: Chemical Principles (4 units)

Satisfies a lower division course in preparation for the Psychology major.

CHEM 20A: Chemical Structure (4 units)

Satisfies a lower division course in preparation for the Psychology major.

LIFESCI 15: Life: Concepts and Issues (5 units)

Satisfies a lower division course in preparation for the Psychology major.

PHYSCI 3: Introduction to Human Physiology (5 units)

Satisfies a lower division course in preparation for the Psychology major.
